

# LOOKING TO GET SPRUNG

**Sushi 1 year old FS**

Sushi is a young, spunky, frisky, trouble maker. She is super lovely to look at and very happy on her own terms. She loves her catnip like crazy and loves exploring but she dislikes any type of restraint. This makes things very difficult when her nails get long. She will likely require a trip to the vet possibly once month to get the professionals to do this. To help the situation, offer her scratching materials like scratching posts, cardboard toys, etc. Experienced foster would be better. No children **Single cat home**

**Rocky 6 years old FS**

Rocky is a lovely cat that was surrendered to the shelter by her owner. She was having some diarrhea and is now on some meds to help clear it up. Can you give her a home to fully filling better and ready for adoption.

**Let me know!**

**Utopia" 4 year old**

**Miss Utopia was surrendered from someone who was no longer able to care for their cats. She is getting stressed in the shelter and really needs to get out and into a home.**

**A819183                      9 years old                      MN**

**We don't know a lot about this sweet boy. He came in as a stray and while the rescuer would have liked to keep him because he will need some dental work, are unable to so. Let me know if you can help!**

**"Ashlene" 10 year old FS**

**Ashlene was surrendered because owner has no time for the kitty any more and she is not a fan of the grandkids. She will need some dental work at some point and might do better in a single cat home without kids. Hopefully someone can give this pretty girl another chance.**

**A819948 2 yr old F**

This poor, sweet girl needs a home to recover in. She has a sparse haircoat and a bit of a skin condition that needs some special TCR TLC. Let me know if you can help.

**A818458 Maggie 8 years old - on the list since Oct 12**

Owner surrender - not a lot teeth left, could really use a loving home.

**Sambucus 5 Yr MN**

Sambucus is a friendly cat but also very protective of his own space. He doesn't like to be picked up, and when he's in a social mood, he will approach you. When he's not, he's best left alone, and can be a little prickly. He does like people, and there are few feelings nicer than when he sprawls across your chest and purrs up a storm. He's generally a very vocal cat, and when something is wrong, he will let you know. **Single cat home**

# KITTENS

Charlie, Frankie, and Bo 4 MONTHS -  
**URGENT MOVE**

Charlie, Frankie, and Bo are three little siblings who are still getting used to humans. All three love playing and will interact with you in this way. They are all still very wary of human touch and will run away if you try to pet them, however, they've made big steps from when they were first rescued.

These guys still need socialization. They are having trouble with diarrhea, but always go in the litter and are on their second round of de-wormer, so hopefully this will clear up their tummy troubles. An experienced kitten foster is preferable. **WE WOULD LIKE TO SPLIT THESE KITTENS UP - WILL SEND AS SINGLES OR TO HOMES WITH FRIENDLY CATS TO HELP THEM ALONG**
